Alex Morgan
Email: alex.morgan@testdomain.edu | Phone: +1-555-0144 | LinkedIn: linkedin.com/in/alexmorgan-dev
Summary: Dedicated Software Developer with solid foundation in algorithms, REST APIs, and full stack web dev

EDUCATION
Bachelor of Science in Computer Science | State University | GPA: 3.8 / 4.0 | 2020 - 2024

TECHNICAL SKILLS
Languages: Python, TypeScript, JavaScript, SQL, HTML, CSS
Frameworks & Tools: FastAPI, React, Node.js, Git, Docker, PostgreSQL

EXPERIENCE & PROJECTS
Software Engineering Intern | TechCorp Labs | Summer 2023
- Designed and implemented RESTful endpoints using Python and FastAPI, serving 10,000+ daily requests.
- Integrated automated testing pipelines with pytest, achieving 92% code coverage.
- Optimized database indexing in PostgreSQL, reducing query latency by 35%.

NLP Resume Parser Project | Academic Capstone | 2024
- Built a resume parsing pipeline using Python, PyMuPDF, and LLM APIs to extract structured candidate profiles
- Implemented real-time ATS compatibility scoring and gap analysis.
